

The 9/11 ‘Omission’ Report

# Omission #1

The omission of evidence that **at least six of the alleged hijackers** – including Waleed al-Shehri, said by the Commission probably to have stabbed a flight attendant on Flight 11 before it crashed into the North Tower of the WTC – **are still alive** (19-20).

**The 9/11 ‘Omission’ Report**

Arab names (23).

**The 9/11 Commission Report: Omissions and Distortions by Dr. David Ray Griffin**

The 9/11 ‘Omission’ Report

# Omission #5

The 9/11 Commission Report: Omissions and Distortions by Dr. David Ray Griffin

The 9/11 ‘Omission’ Report

# Omission #6

The omission of the fact that the fires in the Twin Towers were not very big, very hot, or very long-lasting compared with fires in several steel-frame buildings that did not collapse (25-26).

## The 9/11 ‘Omission’ Report

# Omission #7

The omission of the fact that, given the hypothesis that the collapses were caused by fire, the South Tower, which was struck later than the North Tower and also had smaller fires, should not have collapsed first (26).

## The 9/11 ‘Omission’ Report

# Omission #8

The omission of the fact that WTC 7 (which was not hit by an airplane and which had only small, localized fires) also collapsed – an occurrence that FEMA admitted it could not explain (26).

The 9/11 ‘Omission’ Report

# Omission #9

The omission of the fact that the collapse of the Twin Towers (like that of Building 7) exemplified at least 10 features suggestive of controlled demolition (26-27).

The 9/11 Commission Report: Omissions and Distortions by Dr. David Ray Griffin

## The 9/11 ‘Omission’ Report

# Omission #10

The claim that the core of each of the Twin Towers was "a hollow steel shaft"— a claim that denied the existence of the 47 massive steel columns that in reality constituted the core of each tower and that, given the "pancake theory" of the collapses, should have still been sticking up many hundreds of feet in the air (27-28).

The 9/11 ‘Omission’ Report

# Omission #11

The omission of Larry Silverstein's statement that he and the fire department commander decided to "pull" Building 7 (28).

The 9/11 Commission Report: Omissions and Distortions by Dr. David Ray Griffin

## The 9/11 ‘Omission’ Report

# Omission #13

The omission of the fact that because Building 7 had been evacuated before it collapsed, the official reason for the rapid removal of the steel – that some people might still be alive in the rubble under the steel – made no sense in this case (30).

**The 9/11 ‘Omission’ Report**

## The 9/11 ‘Omission’ Report

# Omission #18

The omission of the fact that there are photos showing that the west wing's façade did not collapse until 30 minutes after the strike and also that the entrance hole appears too small for a Boeing 757 to have entered (34).

**The 9/11 ‘Omission’ Report**

# Omission #19

The omission of all testimony that has been used to cast doubt on whether remains of a Boeing 757 were visible either inside or outside the Pentagon (34-36).

**The 9/11 Commission Report: Omissions and Distortions by Dr. David Ray Griffin**

## The 9/11 ‘Omission’ Report

# Omission #20

The omission of any discussion of whether the Pentagon has a anti-missile defense system that would have brought down a commercial airliner---even though the Commission suggested that the al-Qaeda terrorists did not attack a nuclear power plant because they assumed that it would be thus defended (36).

## The 9/11 ‘Omission’ Report

# Omission #21

The omission of the fact that pictures from various security cameras – including the camera at the gas station across from the Pentagon, the film from which was reportedly confiscated by the FBI immediately after the strike – could presumably answer the question of what really hit the Pentagon (37-38).
